Profile

As a dedicated cybersecurity student, I'm passionate about defending digital spaces and staying ahead of emerging threats. I've excelled in ethical hacking, vulnerability assessments, and network security protocols, tackling real-world problems in class projects. My motivation lies in making the internet a safer place, and I've gained hands-on experience with tools like Kali Linux, Wireshark, and various encryption techniques. With a strong foundation in cybersecurity, I'm always ready to take on new challenges and sharpen my skills!
